

# Decking Fixings *by* Lindapter®

High quality, cost-effective connections for securing building services such as mechanical and fire protection systems. Designed to fit inside the dovetail re-entrant channels of popular composite decking profiles, Lindapter's fixings provide a zero-impact method that avoids delamination and damage to the decking.

## On-Site Capacity Checks

Lindapter's Engineers can provide tensile tests on the full range of decking fixings. Available on request and subject to application.

## Installation Videos

Videos of decking fixings and other Lindapter products can be viewed online at [www.Lindapter.com](http://www.Lindapter.com)

### Type TR60

For **TR60+** and **TR80+** profiles by Structural Metal Decks (SMD).
